1. Claims 1-22 are presented for examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20 drawn to a co-evaluation system for a component of an electronic device, classified in class 709, subclass 224.

- II. Claims 21-22 drawn to providing a homepage by a server utilizing the business method of calculating fees, classified in class 705, subclass 30.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I-II are related as subcombinations and are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as lacking the business method of providing a homepage by a server through calculation of fees. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2154

6. A telephone call was made to James Halsey (of Staas & Halsey LLP (202)-434-2500) on January 27, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).
